Experience

Society Managers Inc. (SMI) — Client: The Branding Club

Aug 2024– Present

Software Engineer - II(L2)

Mumbai, Maharashtra

- Developed UI features using Next.js, focusing on component reusability, performance optimization, and consistency across the application.
- Enhanced usability through optimized state management, lazy loading, smooth navigation, and efficient form handling.
- Implemented authentication workflows, protected routes, and secure front-end data handling to strengthen platform security.
- Implemented version-based feature switches to turn any released feature on or off (no code change), with saved settings and an emergency off switch.
- Implemented backend features for document and transaction systems (invoices, templates, PDF generation), handling APIs, business logic, and data flow end-to-end.
- Optimized system efficiency through query optimization, structured error handling, and modular code design.
- Set up a docs-first AI workflow using Claude, Codex, and MCP-based integrations, enabling more consistent code generation, reducing review rework, and improving development speed across the team.
- Achieved 90+ Lighthouse scores**, reduced page load time by **50%**, increased user retention by **55%**, and **automated 60% of bug resolution** using AI-assisted workflows.

Onelab Ventures

March 2023– Aug 2024

Software Development Engineer- 1

Remote

- Successfully managed on-premise deployment challenges, ensuring security compliance and efficient troubleshooting.
- Collaborated with esteemed clients, including NSE-Corpository (National Stock Exchange), actively participating in requirement analysis and ensuring delivered solutions meet the highest quality standards.
- Designing, developing, and implementing software solutions to meet client requirements.
- Streamlined administrative processes within the frontend admin panel, including enhancing communication features, improving security measures, and ensuring data integrity through validation and integration with backend APIs.
- Collaborated with esteemed clients, including RFIS (Reliance Foundation) and Complimate, actively participating in requirement analysis and ensuring delivered solutions meet the highest quality standards.
- Optimized code quality, **reducing duplicacy from 27% to 13%**, and conducted performance assessments to enhance software speed and stability.

Technical Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, Redux, Tailwind CSS, Material-UI, SSR/SSG

Backend: Node.js (Express), Django/Django REST Framework

AI & Automation: OpenAI API, Claude, Codex, ChatGPT, AI-Assisted Development, Model Context Protocol (MCP), Figma-to-Code Automation

Databases: MongoDB, PostgreSQL, MySQL

Soft Skills: Leadership, Problem Analysis, Problem-solving

Projects

Bug Buster (AI-Powered Jira Automation Tool)

- Designed and developed an AI-powered tool that integrates Jira with OpenAI APIs to automate bug analysis and resolution.
- Reduced debugging effort by resolving 60% of issues automatically.
- Improved developer productivity by automating repetitive debugging workflows and reducing turnaround time.

ml-uikit (Reusable UI Component Library) | React, Storybook, shadcn/ui [\[Link\]](#)

- Developed and published a reusable UI component library on npm (ml-uikit).
- Designed reusable components to standardize UI and improve consistency across multiple applications.
- Used Storybook for component development and testing, and leveraged shadcn/ui for scalable design patterns.
- Reduced repetitive UI development effort across projects.

Sci-WebHub: A Web Deployment and Hosting Platform | Next.js, Node.js, PostgreSQL

- Built backend infrastructure to manage automated deployments using GitHub repository integrations.
- Designed API services to handle project builds, deployment tracking, and environment configurations.
- Implemented database schema for tracking deployments, logs, and version history.

Education

U.I.E.T, C.S.J.M UNIVERSITY

Aug. 2019– May 2023

Bachelor of Science in Computer Science

Kanpur, Uttar Pradesh, India
